

Impact Report

On the Road with Dunkin

Stories with Dunkin

Last month we piloted a new PupMedics program called **Stories with Dunkin**. This project is designed to create a living archive of personal stories, memories, and life experiences shared by older adults and members of our community.

Each story is recorded in the calm and comforting presence of Dunkin, a certified crisis response therapy dog. These recordings become a meaningful keepsake—preserved for families, loved ones, and future generations to treasure.

We have already recorded **six stories**, and each one has been a special experience. One of our first storytellers, Mr. Cliff, shares several entertaining and inspiring moments from his life that he thoughtfully wrote down and now brings to life through his reading. As he tells his stories, Dunkin rests faithfully at his feet, adding a quiet sense of comfort to the moment. Take a moment to watch and listen—I think you'll be delighted. (Don't forget to like and subscribe so you don't miss a story!)

PupMedics: Stories with Dunkin

Doors God is Opening

Visit to Baptist Health Walker

This month we had the opportunity to visit Baptist Health Walker to tour the hospital and meet members of their team. The hospital is currently launching a new therapy dog program and invited several teams from the area to visit and be considered for participation.

Dunkin and I were honored to be invited—and even more excited when they asked us to apply to be part of the program. We are currently in the application process and prayerfully considering the commitment.

Although the hospital is about an hour and a half from Huntsville, we believe the opportunity to serve there could be incredibly meaningful. Our hope is to visit once a month and stay overnight at a nearby RV park so we can also spend time with the night shift. These dedicated staff members often miss out on therapy dog visits simply because of their schedule.

By staying overnight in our camper van, we would be able to make multiple visits throughout the day and evening, taking breaks in the van between rounds. It's a simple way to extend care and encouragement to even more people who work tirelessly to care for others.

Serving in Our Community

The Riley Center

Dunkin continues to bring encouragement to students and staff at The Riley Center, where we work with children and young adults on the autism spectrum. These moments of connection often become meaningful opportunities to bring calm, joy, and encouragement throughout the day.

Ways to Support

Prayer Requests:

- Protection and provision for Dunkin and me as we travel and serve
- Opportunities to bring encouragement to patients, families, and medical staff
- Continued impact at The Riley Center
- God's direction for summer ministry opportunities. (We would love to be a part of a sleep away Christian Camp for the month of June)

Thank you for being part of this ministry. Your prayers, encouragement, and support allow Dunkin and me to continue bringing comfort and hope to people during some of their most difficult moments.

With gratitude,
Tina & Dunkin
